LIVE A FRUITFUL LIFE...

welcome to jamba juice

We're here to tickle your taste buds and revitalize your day! Let us entice you with fruit flavors and nourish you with nutrients in one convenient package—everything you need to live an active, healthy life. With 3-4 servings* of fruit and wholesome vitamins and minerals in each delicious smoothie, you can enjoy Jamba as a snack or a light meal. Whichever option you choose, your body will love you for it!

Jamba Juice is devoted to the pleasures and rewards of fresh fruit juices and smoothies. You'll find our stores filled with information about our menu items. So if you have questions about carbs, what that green wheatgrass juice is good for or how many servings of fruit are in each smoothie, check out our in-store Nutritional Analysis Guide or just ask and we can provide the information you're searching for.

From the day we opened, we listened to our customers' comments and asked ourselves how we could improve. The result: we evolved into the market authority on blended-to-order smoothies and fresh-squeezed juices.

Our inspiration remains the same today - we want to make it easy to enjoy something truly delicious and good for you... Enjoy!

*Based on an average 24 oz Original size smoothie
