## Because It's Better

The Pizza Barn is proud of the product produced every day in our three stores, located in Elko, Fallon and Gardnerville. Our pizza features five delicious cheeses, blended by us to ensure the smoothest texture. The highest quality meats available on the market today are also used, as is garden fresh produce and the Pizza Barn's own rich dough recipe, made on the premises and rolled fresh every day. We realize that some of the ingredients used in the making of our pizzas are expensive, but we feel it makes a difference that you will appreciate and enjoy. We believe also that you will be pleased with our prices, as they generally run less than other pizza houses throughout Nevada and the Intermountain West.
