Pizza at Home

- 1) Pre-heat oven to 425 degrees.
- 2) Remove plastic and baking instructions.
- 3) Place one pizza on the center rack of your oven.
- 4) Monitor progress after 10 minutes. Remove when the crust is golden brown and you achieve desired crispness.

Tips For a Great Pizza

- * If you are not going to bake the pizza within 30 minutes of pick up, it should be refrigerated; do not refrigerate more than 24 hours.

4) Monitor progress after 10 minutes. Remove when golden brown and you achieve desired crispness.

Tips For a Great Pizza

- * If you are not going to bake the pizza within 30 minutes of pick up, it should be refrigerated; do not refrigerate more than 24 hours.
- * Remove pizza from refrigerator 30 minutes prior to baking.
- * Bake only one pizza at a time.
- * Bake pizza on the tray it comes on.
- * Use center rack of oven.
- * Check pizza after 10 minutes. If large bubbles appear, puncture with a fork.
- * Average baking time is 12 to 15 minutes. Pizza is done when the bottom of crust is golden brown, and cheese is melted.
- * For crispier crust, remove pizza from tray after approximately 12 minutes of cooking and cook directly on oven rack for an additional 2 or 3 minutes.
